

Patients First

Keeping our patients safe and comfortable is our top priority. Investing in the latest technology allows us to acquire high quality images faster for prompt accurate diagnosis. This also allows us to reduce the amount of radiation exposure for exams that utilize it.

Our friendly staff and certified technologists are available to answer all your questions before, during, and after your exam.

*Steven Ciglar, MD
Radiologist*

*Heath VanDeLinder, DO
Radiologist*

*Erik Paulson, DO
Radiologist*

OUR MISSION

*Wagoner Community Hospital
Is Dedicated To Providing
Quality Healthcare
With Courtesy And Compassion.*

OUR CORE VALUES

IMAGING SERVICES

★ **Great People**
★ **Great Service**
★ **Great Care**

RADIOLOGY SERVICES

• CT / Computed Tomography

- CT Angiography including Coronary studies
- Low Dose Lung Screening
- General Head/Spine/Abdominal/Orthopedic
- CT Guided Biopsy

• Mobile MRI Services

- Musculoskeletal
- Head & Spine
- Orthopedic Joint
- MRCP

• 3D Digital Mammography

• Osteoporosis Screenings / DEXA scan

• Ultrasound

- Echocardiograms
- Vascular
- OB/GYN
- Thyroid Scan & Biopsy
- Breast Mass Scan & Biopsy
- General Abdominal/Gallbladder/Soft tissue/Scrotum
- Carotid/Aorta/Peripheral Arterial Disease Screenings

• Nuclear Medicine

- Thyroid Uptake
- Gallbladder/HIDA
- Bone Scan
- MPI Chemical Stress Test
- Pulmonary Perfusion

• Diagnostic Xray Imaging

RADIOLOGY

A branch of medicine that uses imaging technology to diagnose and treat disease. Radiology may be divided into two different areas, diagnostic radiology and interventional radiology.

CT Optima 660 64 Slice

A comfortable experience The Optima CT660 enables short scan times with 40-mm thin-slice acquisitions for reliable studies. The video of relaxing scenes or cartoons can have a calming effect on children or patients of all ages. An automated voice system provides the ability to give instructions in the patient's own language. In the low position, the exam table helps with access for patients in wheelchairs.

Ultrasound GE Vivid E90

GE Vivid E90 is a premium cardiovascular ultrasound system. The Vivid E90 also covers a wide range of clinical applications through different types of transducers.

MRI GE 1.5T Magnet

Multi-channel coils
Boosted Speed
High Quality Imaging

DEXA Prodigy Full Oracle Scanner

Dependable dual-energy X-ray absorptiometry (DXA) assessment, and Prodigy delivers with industry-leading precision and low-dose radiation.

Diagnostic Xray Suite

GE Proteus
High Quality Digital Imaging
Dose efficient.

Nuclear Medicine

GE Millennium MG
Dual Head Nuclear
Camera with Xeleris
4DR Processing.

GE Senographe Pristina 3D

Low Dose for Diagnostic Accuracy
Senographe Pristina is the ONLY FDA approved 3D mammography that delivers at the same low dose as 2D FFDM the lowest patient dose of all FDA approved systems
